Preface

This volume is organized into four sections: phonology, syntax, syntax/semantics, and semantics. As always, this should not be taken as a strict division since some papers could be appropriately placed in more than one category. Within each section, papers are arranged in alphabetical order. The volume begins with S.-Y. Kuroda's welcoming speech given the morning of the first day of the conference. We believe the themes and tone of the conference are reflected in his opening remarks. We would like to thank the contributors and participants of WCCFL XIII for making it a successful conference.
